

Introducing ZeeZee by Amazon—: Amazon’s latest Immersive Smart Sleep System Bundle

For the insomniac who just wants a good night sleep, it is time to regulate your circadian rhythm.

Create the ideal sleeping experience with Amazon’s latest smart home integration, ZeeZee. Drift away and choose from a list of curated diffuser blends. Sound asleep to soothing music, bed time stories, or breathing/meditation exercises. Track your sleep quality by measuring your heart rate and body temperature to analyze for your optimal future sleep. ZeeZee can be a stepping stone for those with sleeping disorders to create normal sleeping habits for optimal daily performance. This system can be controlled from Alexa, your smart watch, mobile phone & desktop. You will wake up feeling refresh and ready to attack your day more productively.

According to The National Sleep Foundation, 45% of Americans say that poor or insufficient sleep affects their daily activities.

ZeeZee is an immersive sleeping experience creating the ideal sleeping experience for the user to perform of daily activities.

“Sleeping helps our brain function properly to perform better. ZeeZee help with creating a night time routine and an environment for the person to be comfortable in and to normalize their circadian rhythm. As a designer, I pulled many late nights and have seen decrease in productivity level, creating an experience where one will enjoy sleep is something that I’ve always dreamt of (unintended pun).”
